The QuickLaunch Advantage: Unlock Enterprise **Insights in Weeks, Not Years**

QuickLaunch Analytics Packs combine the technical infrastructure of the Foundation Pack with the deep, application-specific intelligence of our Application Packs. This integrated platform turns your fragmented enterprise data into a unified, governed, and future-ready analytics ecosystem.

Accelerated Time-to-Insight

Deploy a complete, enterprise-grade analytics solution in weeks, not years compared to building from scratch.

Unified Data Foundation

Integrate data seamlessly from diverse ERP, CRM, and operational systems into a governed Data Lakehouse built on modern cloud technology.

Embedded Application Intelligence

Leverage pre-built Power BI data models that decode complex application structures into business-friendly formats and standardized metrics.

Built on These Modern Technologies

databricks **K** Fivetran

Power BI

From Pipelines to Power BI: Solution Overview

Foundation Pack: Your Enterprise Analytics Launch Pad

Data Pipelines

- Automate data movement from any source system
- Synchronize data in real-time or on schedule
- Improve data quality with built-in validation

Data Lakehouse

- Cloud-native setup on Databricks or Microsoft Fabric
- Enterprise-grade security and governance
- Delta Editor and Schema Compare tools included

Enterprise Analytics

- Pre-built Power BI data models and dahsboards
- Centralized business logic and calculations
- Built-in time intelligence, currency conversion, and more

Application Packs: Turn Complex Systems into Actionable Intelligence

Extend your QuickLaunch analytics ecosystem with pre-built, expert-designed intelligence layers tailored for your mission-critical enterprise tools. Transform raw application data into intuitive, business-friendly analytical models— complete with pre-configured dashboards that deliver immediate value.

www.quicklaunchanalytics.com

- Application-specific data model with 1,000s of optimized DAX measures
- Perspectives for Finance, Supply Chain, Job Costing, Payroll & more
- Pre-built dashboards and financial statements included
